

31<sup>st</sup> July 2012

To whom it may concern.

Hyprop contracted with Wreckers for the demolition of a multi-storey building located on Erf. 189, Rosebank, Johannesburg. The scope of the project included the demolition, clearing of the rubble and removal of the basement structures.

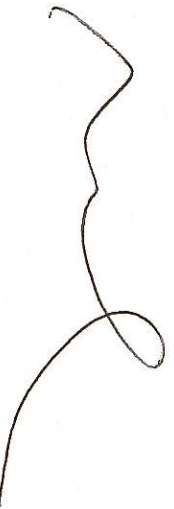

This letter serves to confirm that Hyprop was satisfied with all aspects of the demolition and clearing of the site.

The project was extremely professionally managed, there were no safety issues or concerns and the project was completed within the agreed timeframes.

I would not hesitate to again contract with Wreckers or recommend them to a 3<sup>rd</sup> party for demolition type contracts.

Please feel free to contact me should you require further information.

Regards.

Steven Riley
