

26 June 2015

To whom it may Concern,

Dear Sir,

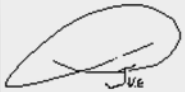

I can confirm that Wreckers Construction was appointed by Jodan Construction to demolish a building on our Project on the Corner of Rivonia and Pybus Road, Sandton on 7 June 2015.

The demolition was done by imploding the building; the team from Wreckers successfully completed the Implosion within Programme and abiding by all the required permissions and safety standards.

It was indeed a pleasure working with Wreckers as the team required minimal management in relation to time and preparation and was very diligent in their work.

The Wreckers team is highly experienced in their field and I would certainly make use of their service in the future.

Yours faithfully,
Jodan Construction (Pty) Ltd
